

## COVID-19 Update 5/14/21

As of noon May 14th, 2021, Clay County, MO has expired its emergency order that requires face masks and physical distancing indoors and outdoors for fully vaccinated individuals.

With that said, we take pride in making sure our staff and guests have a fun, relaxing, and safe experience. We have followed the Emergency Orders since they were placed on us March 17, 2020. A good portion of our staff has been fully vaccinated. We will continue to wear masks until we have better clarification from the Clay County Health Department, or we feel that they are no longer needed. We are continuing to take daily temperature checks for all staff members. Those who feel ill, will not be in the building and allowed to work.

We appreciate the continued support throughout all of this. We hope to see you in soon.

Thank You for Supporting Local!,
